

MANAGING COVID-19 SAFELY

Leveraging technology to keep homeowners and employees safe while we protect your home.

Training & Awareness

1

To ensure the safety of our workers and homeowners, LeafCo Gutters has researched and follows all requirements provided to us by government agencies, including the Centers for Disease Control & Prevention (www.cdc.gov). These are standards that we share and train our staff on daily.

Personal Protective Equipment

2

Even before the Covid-19 outbreak, LeafCo Gutters was investing in protecting our employees and all people surrounded by our business. It has always included and will continue to include hand sanitizer, Lysol wipes for vehicles and an internal health plan to ensure workers on the job are feeling 100% healthy at all times.

Technology

3

LeafCo Gutters is a leader in utilizing technology for safety and efficient in the gutter & leaf guard industry. From measurements (Hover & laser distance measure technologies) to professional inspection reports (CompanyCam & Leap to Digital technologies) allows us to give you better information on your home, fast.

Web Meetings

4

As a business, we always prefer to meet customers face-to-face before we are trusted with protecting their home. Thankfully Zoom and other web meetings allow us to maintain the highest level of communication as we walk you through photos from our detailed inspection and share product options for understanding the best options you have in caring for your home.

"As a business, our first commitment is to safety for our employees and the homeowners that trust us to care and protect their homes. As President of LeafCo Gutters, I can always be reached to speak with you directly about our safety program and best practices." –Isabel Bednarski (isabel@leafcogutters.com or 800.954.8989)
